Summary

Junior full-stack developer with two years of experience in building and maintaining websites using modern web technologies, including HTML, CSS, JavaScript, Python, and Ruby. Skilled in optimizing website functionality, enhancing user experience, and prioritizing performance and accessibility. Proficient in web design, back-end development, and database management. Seeking a full-stack developer role to further develop my programming craft while collaborating with a skilled and dynamic team.

Skills

- Languages: C, C++, Java, JavaScript, TypeScript, Python, Ruby, Lisp, SQL, HTML, CSS
- Frameworks: React, Express, Next.js, Astro, Django, Ruby on Rails, Tailwind CSS
- Technologies: Linux/Unix, Node.js, Git, Docker, PostgreSQL, RESTful APIs, Emacs
- **Methodologies:** Object-Oriented Programming (OOP), Agile Software Development, System Design, Test-Driven Development (TDD)

Experience

Full-Stack Developer

Mallard Web Design Summersville, WV

October 2024 — Present

• Started my own company to provide custom websites for local businesses.

Full-Stack Developer Intern

June 2024 — August 2024

Horizon Investments Charlotte, NC

- Worked with senior developers to build and maintain a full-stack financial planning web app.
- Refactored and redesigned multiple pages to enhance UI/UX and improve site performance.
- Discovered and fixed a major security vulnerability in our use of third-party code.
- Normalized database by refactoring schema and consolidating duplicate data.

Music Director

All Saints Church

August 2017 — October 2024

Weddington, NC

- Designed and maintained church website while overseeing church music and media.
- Developed a web application for the Anglican lectionary to streamline liturgical service planning.

Education

Bachelor of Science in Religion September 2009 — May 2013 Liberty University
Lynchburg, VA
